Portfolio: anastasiia-totska-github-io.vercel.app

PROFESSIONAL SUMMARY

Motivated React Developer with hands-on experience in:

- developing responsive web applications
- component-based architecture
- delivering client projects

What I bring to the team

- Independent, structured, and detail-oriented approach to work
- Analytical thinking and quick learning ability
- Teamwork, strong communication skills, and eagerness to learn
- Strong eye for user-friendly UI design and detail
- Enthusiasm for innovative digital solutions and continuous development
- Strong commitment and work ethic
- Fluent communication in multiple languages
- Open to remote and hybrid work and willing to relocate across Germany
- Available to start at short notice

TECHNICAL SKILLS

Frontend: React, TypeScript, Next.js (App Router), HTML5, CSS3, JavaScript (ES6+)

UI & Styling: Responsive Design, Mobile-First, CSS Modules, Framer Motion, Figma

State Management & APIs: Zustand, React Context API, TanStack Query, REST APIs, Axios, Fetch API

Performance & SEO: Lazy Loading, Code Splitting, Image Optimization, SEO Fundamentals

Testing: Vitest, React Testing Library

Tools & CI/CD: Git, GitHub, Vite, Vercel, ESLint, GitHub Actions (CI/CD Fundamentals)

Accessibility: Semantic HTML, WAI-ARIA Fundamentals, Keyboard Accessibility

Web Security (Fundamentals): Supabase Auth, Row-Level Security (RLS), Server-Side API Integration

Backend & AI Tools: Node.js, Vercel Serverless Functions, Supabase, Database Fundamentals, OpenAI Codex

PRACTICAL EXPERIENCE & PROJECTS

sama-zlipula | Client Project | Design & Web Development

React, TypeScript, Supabase, Vercel Serverless Functions, Telegram Bot API | **06/2026**

Live-Demo

- Developed a responsive client website with a product catalog, shopping cart, and order form; integrated server-side Telegram notifications.
- Implemented an admin dashboard with Supabase Auth and catalog management; configured Row-Level Security (RLS) policies.

Portfolio-Website | Next.js, TypeScript, Framer Motion, CSS Modules | **since 03/2026**

Live-Demo | GitHub

- Developed a multilingual (DE/EN/UA) portfolio website with responsive design and animated components.
- Integrated Next.js image optimization, SEO metadata, and language-specific CV downloads.

MovieFinder | React, JavaScript, TMDB API, Vitest, React Testing Library, GitHub Actions | **02/2026**

Live-Demo | GitHub

- Built a movie search application with filters, pagination, and detail pages; added lazy loading and keyboard-accessible ARIA filters.
- Configured Vitest and React Testing Library tests, plus CI checks for linting, tests, and builds.

NoteHub | Next.js, TypeScript, TanStack Query, Zustand, Axios | **02/2026**

Live-Demo | GitHub

- Developed a responsive note management app with search, tag filters, and pagination.
- Implemented REST API integration and caching with TanStack Query; saved persistent form drafts with Zustand.

EDUCATION & TRAINING

Full Stack Developer

Certificate Program | GoIT Academy (2025–2026)

HTML5, CSS3, JavaScript, React, Node.js, Git, REST APIs

Master's Degree in Finance, Banking and Insurance

Zaporizhzhia National University (2018–2020)

Bachelor's Degree in Finance, Banking and Insurance

Zaporizhzhia National University (2014–2018)

LANGUAGES

Ukrainian – Native | **German** – Fluent | **English** – Fluent
