SUMMARY

Motivated Full Stack Web Developer with basic knowledge of HTML, CSS, JavaScript, React, Next.js, Node.js, Git, GitHub and REST APIs. I have successfully completed an online Fullstack course at GoIT Academy and would now like to deepen my knowledge for the German job market.

My goal is to find a junior position in web development, full stack development or software development. I work in a structured way, learn quickly and am especially interested in modern, responsive and user-friendly web applications.

SKILLS

Programming Languages: JavaScript, basic TypeScript, basic Node.js
Frontend Technologies: HTML5, CSS3, React, Next.js, Responsive Web Design, Mobile-First Development
Backend Basics: Node.js, REST APIs, basic database knowledge, authentication
Tools: Git, GitHub, Vercel, Axios, VS Code, Vite
Libraries and Frameworks: React Query, TanStack Query, Zustand, Formik, Framer Motion
Web Development: API integration, component-based development, routing, forms, deployment, performance basics
Working Style: structured, reliable, eager to learn, detail-oriented, solution-oriented, team-oriented

LANGUAGES

English – B1
German – B1
Ukrainian – Native

PROJECT EXPERIENCE

NoteHub — Note Management Web Application (2025)
Technologies: React, JavaScript, CSS Modules, Zustand, React Query, Vercel
<https://note-hub-drab.vercel.app/>
- Developed responsive UI optimized for mobile and desktop devices
- Implemented component-based architecture using React
- Integrated client-side state management with React Query and Zustand
- Designed clean and scalable UI using CSS Modules
- Enhanced UX with smooth animations and interactive components

Movie Finder — Movie Search Web Application (2025)
Technologies: React, JavaScript, REST API, CSS, Vercel
<https://movie-finder-ebon-zeta.vercel.app/>
- Implemented real-time movie search functionality using REST API
- Built dynamic movie pages with cast information and user reviews
- Developed reusable React components for scalable frontend
- Created responsive layout optimized for mobile and desktop

PRACTICAL DEVELOPMENT EXPERIENCE

Learning Projects and Personal Projects in Full Stack Web Development (2026 – Present)
- Developing modern frontend applications using React, Next.js, and TypeScript
- Built and deployed web applications with REST API integration
- Implemented state management with React Query and Zustand
- Designed mobile-first responsive interfaces
- Practiced scalable frontend architecture and reusable components

EDUCATION AND CERTIFICATES

Fullstack Developer Course – GoIT Academy

Completed: 05/2026

Technologies: HTML, CSS and Responsive Design, JavaScript, React, Next.js, Node.js, Git and GitHub, REST APIs

Master of Finance, Banking and Insurance — Zaporizhzhia National University, Ukraine (2018–2019)

Bachelor of Finance, Banking and Insurance — Zaporizhzhia National University, Ukraine (2014–2018)
