PROFESSIONAL SUMMARY

Motivated Junior Frontend Developer with hands-on experience building responsive web applications using React, Next.js, and TypeScript. Skilled in REST API integration and component-based architecture, with experience delivering a website for a real client. Eager to learn new technologies, contribute to a development team, and continue growing professionally.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React, Next.js, HTML5, CSS3
UI & Styling: Responsive Design, Mobile-First Development, CSS Modules, Framer Motion
Tools & Concepts: Git, GitHub, REST APIs, Axios, React Query, Zustand

PROJECTS

sama-zlipula | Client Project | May–Jun 2026
www.samazlipula.com
- Developed and launched a responsive client website featuring a product catalog, shopping cart, and online ordering process.
- Implemented automatic new-order notifications for the site administrator through a Telegram bot.

Portfolio Website | Next.js, TypeScript | Mar 2026–Present
anastasiia-totska-github-io.vercel.app
- Built a multilingual portfolio (German, English, Ukrainian) with interactive project views, Framer Motion animations, and responsive design.

MovieFinder | React, TMDB API | Feb 2026
movie-finder-ebon-zeta.vercel.app
- Integrated movie search, dynamic detail pages, cast information, and ratings using a REST API.

NoteHub | React Query, Zustand | Jan–Feb 2026
note-hub-drab.vercel.app
- Developed a responsive note-taking application with reusable components and state management.
